

Clark Forklift

Currently, there are at least 350,000 Clark lift trucks performing worldwide, and upwards of 250,000 operating in North America alone. With five major lines across the world, Clark is proud to be one of the most expansive organizations in the industry. Heavy duty vehicles ranging from 1,500lb to 18,000lb capacities, dual fuel, gasoline, LPG, hand powered lift trucks, narrow-aisle stackers and electric riders are some of their specialties.

Clark Totalift has 20 distinctive brands of lift trucks, with parts covering more than 120,000 particular parts for all of its automated equipment. Your local Clark Dealer is your total source for availability of all your components requirements supplied by Clark Totalift.

Clark's exceptional Parts Distribution Stores are conveniently located in Louisville, Kentucky, which serves both their consumers and dealers in North America, and Changwon, South Korea, which handles their Asian sellers and customers. For over 90 years, Clark has surpassed industry standards, being one of the most actively advancing producers. Motivated to provide the highest level of value and service to our clients, Clark remains on the leading edge when it comes to enhancing productivity and benefiting performance.

Clark Totalift has a really outstanding international support network. With over 550 locations globally, supplier representation in over 80 countries and 230 locations in North America, their high level of commitment to their consumers predominates the material handling industry.

By revolutionizing the operator restraint system safety feature, Clark proudly remains a leader of refinement in the industrial equipment and automated forklift industry. This exceptional commitment to safety is at this time a customary feature on every lift truck.

Clark's continual effort to boast the No. 1 Quality system in the industry is proudly demonstrated by ISO 9001 — Clark, is the first lift truck producer across the globe to be certified with the globally accepted quality standard ISO 9001 for every one of their manufacturing facilities. Furthermore, the ISO 14001 Environmental Conservancy System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement allows Clark to be prepared for any environmental limitations, thus placing them in a dominant market position.

Lean Manufacturing

Clark has chosen the system of "Lean Manufacturing" at all of its assembly plants because this technique is extremely economical and permits minimal use of resources. Established to ensure maximum proficiency, this system is designed to discover and acknowledge the most effective ways for production facility stewardship. Clark has concluded this transition of its Korean plant. COPS which is Clark Optimized Production System, equally focuses on quality of product and services and manufacturing efficiencies.

Engineering

By working collectively, Clark's product suppliers and engineers communicate towards enhancing product proficiency while minimizing expenses. The new value engineering agenda combines progressive product growth and offers improved consumer support and service within the industry.
